Coins on exhibition during days of sale. Bids received by the Auctioneers, and all Coin Dealers.

## P R E F A C E.

---

We wish to call particular attention to the fact that the coins in this collection are to be sold in the *evening* instead of the afternoon, as usual. We have made this change for the convenience of gentlemen who are unable to attend auctions held in the day time, thereby giving all an opportunity of purchasing, and also of seeing what they buy. The coins will be on exhibition throughout the day in the salesroom.

In regard to the condition of the various pieces, we can assure intending purchasers at a distance that they have all been faithfully described, and all are warranted genuine unless otherwise stated.

For the pieces that are to be sold, the catalogue is the best guide; and even a cursory glance through its pages will show the amateur that there are pieces which would be a desirable acquisition to any collection in the country, the collection of American silver is remarkable for the variety of dies and merits of the various pieces and the foreign copper coins are remarkably extensive.

In reference to the method of selling at auction, we would say that each lot is sold to the highest bidder, at so much for each coin in the lot, so if a lot containing ten pieces is desired, and the collector wishes to bid \$1. for it, he should bid 10 cents each.

Always state your highest price, replying on the honor of those you employ to make the purchase for you at as low a figure as possible.

Collectors are requested to send in their bids at as early a date as possible as the mails are sometimes delayed so that bids sent do not arrive till after the day of sale.

# CATALOGUE.

*Note. When there is more than one coin in a lot, they will be sold for so much apiece for each coin in the lot.*

Contains also descriptions of a large number of foreign coins. Well illustrated. Price, 50 cents; post free, 55 cents.

#### VOLUME VI.

This volume is equal, if not superior, to any which has preceded it. The striking feature is a complete illustrated history of "U. S. Bank Tokens," 1837, or Jackson cents, as they are variously called. Many of these tokens, which before the publication of this article sold for a few cents, or two dollars at the most, now sell as high as \$40. It also contains the usual amount of miscellaneous information and a large number of illustrations. Price, 50 cents; post free, 55 cents.

#### VOLUME VIII.

The special feature of this volume is Dr. Morris's series of papers on Roman coins, the best work on the subject ever written in condensed form, thousands of Roman coins are here described and an illustration given of every Imperial Roman, whose portrait adorns the coinage of ancient Rome. This splendid history of the coinage of the ancients is illustrated with one hundred and twenty-five engravings of Roman coins, all made expressly for this work, regardless of cost, the results being the very best guide to the knowledge of Roman coins in the English language.

The remainder of the volume is filled with a miscellaneous collection of papers of interest to collectors of American coins, and should be in the hands of every collector. 212 pages, 221 illustrations, strongly bound in cloth. Price, \$2.50; post free, \$2.65.

A limited number of all the volumes from I to VIII, inclusive, bound in the same style, can be had at the same price. The complete set for \$20, sent free by express, to any part of the U. S. dispensable to all coin collectors.
